

## **ECO-SCHOOL**

The Juniors have taken up the challenge of helping our school become more eco friendly as we work towards a national award. This week they have audited our current eco status and devised an action plan.

Toby and Lucy S say 'We are trying to be super strong Eco Warriors to protect the earth. We will fight for our earth by picking up rubbish, turning off lights and turning off taps. Together we will try to get an Eco School award. Please can you join us on our mission?'

Information about what we are focussing on will be displayed by the Eco Warriors on their notice board in the Link and also on our Website - please keep your eyes open for ways to help!
